EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 16-22, 27, 28, 44-50, 55 and 56 (The claims have been withdrawn from consideration, see Response to Restriction Requirement correspondence filed on 11/04/04).

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Picciolo et al (US2002/019891) discloses a system including a plurality of building blocks arranged in a Gram-Schmidt cascaded canceller-type configuration for generating a filtered output signal. Kleinerman et al (US 6,470,047) discloses an apparatus for reducing interference in a communication receiver wherein "the particular interference template and its associated reliability are used to determine the coefficients for a compensation filter." Ogata et al (US 6,122,332) and Koslov (US 5,867,539) disclose apparatus for reducing impulse noise in digital receivers.

3. The following is an examiner's statement of reasons for allowance:

Prior art of record, taken individually or collectively, fails to disclose an apparatus or a method thereof "for detecting and correcting non-stationary noise present on an input data signal that receives the input data signal and produces as output a correction enable

signal, based on the Gram Schmidt orthogonalization, indicating when a correction is required, receives the input data signal and correction enable signal and produces a corrected data signal as output” which further incorporates the process of “receives the corrected data signal and the input data signal and produces an output signal which is the more reliable of the input data signal and the corrected data signal.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
